SHUBHAM

Software Developer | Frontend Developer

Kolkata, West Bengal | +91 7004091929 | sissar99@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Motivated Software Developer with a Bachelor of Technology in Computer Science Engineering and hands-on experience in software development through an industry-oriented internship and practical projects. Proficient in Java, JavaScript, HTML, CSS, and SQL, with a strong foundation in Data Structures and Algorithms, Object-Oriented Programming, and Database Management Systems. Experienced in developing responsive web applications, integrating REST APIs, implementing interactive user interfaces, and debugging software applications. Passionate about writing clean, maintainable code, solving technical problems, and building scalable, user-friendly digital solutions.

Technical Skills

- **Programming Languages:** Java, JavaScript (ES6+), C, SQL
- **Frontend Technologies:** HTML5, CSS3, JavaScript, Responsive Web Design, DOM Manipulation, UI Development, Cross-Browser Compatibility
- **Web Development:** RESTful API Integration, Dynamic Web Applications, Client-Side Rendering, Form Validation
- **Computer Science Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems
- **Tools and Technologies:** Git, GitHub, Visual Studio Code, Chrome DevTools
- **Software Development:** Agile Methodology, SDLC, Debugging, Testing, Problem Solving, Code Optimization
- **Certifications:** Web Development (Euphoria), Python Programming (Coursera), HTML and CSS Portfolio Development (Coursera), Java (HackerRank), C Programming (HackerRank)

Professional Experience

Persistent Systems Jun 2023 – Aug 2023

Software Engineering Intern – Martian Summer Internship Remote

- Completed industry-oriented training in Java, Data Structures and Algorithms, DBMS, and Operating Systems.
- Solved programming challenges involving problem-solving, algorithms, and object-oriented programming.
- Applied core Java concepts through practical coding exercises and technical assignments.
- Strengthened understanding of software development practices, debugging, and coding standards.
- Participated in collaborative technical discussions and project-based learning activities.

Projects

Blog Website Live Project

- Developed a full-stack blog website using React.js, Java, and MongoDB, enabling users to create, manage, and explore blog content.
- Built interactive and reusable frontend components using React.js to provide a responsive and user-friendly interface.
- Developed backend application logic using Java to handle application functionality and data processing.
- Integrated MongoDB for storing and managing blog posts and application data.
- Implemented frontend-backend communication to support dynamic content management and data retrieval.

Weather Application Live Project

- Developed a responsive weather application using HTML, CSS, and JavaScript to display real-time weather information for different locations.

- Integrated weather data through API-based communication and dynamically displayed retrieved information on the user interface.
- Implemented interactive UI elements and responsive layouts to improve usability across different devices.

Personal Portfolio Website Live Project

- Designed and developed a responsive personal portfolio website using HTML and CSS to showcase technical skills, projects, and contact information.
- Created structured sections and navigation elements to provide an organized browsing experience.
- Implemented responsive styling and cross-device layouts to improve website accessibility and usability.

Tic Tac Toe Game *Java Project*

- Designed and developed a console-based Tic Tac Toe game using Java and fundamental programming concepts.
- Implemented game logic, player interactions, conditional statements, loops, and win/draw detection.
- Applied Object-Oriented Programming and problem-solving techniques to structure the game logic.

Online Grocery Ordering System *Ongoing Personal Project*

- Currently developing a web-based grocery ordering application to simplify product browsing, online ordering, and order management.
- Working on product listing, product management, order placement, and order confirmation functionalities.
- Implementing application workflows and exploring suitable technologies for efficient data handling and application functionality.
- Continuously improving the application through feature development, debugging, and testing.

Education

Narula Institute of Technology 2020 – 2024
Bachelor of Technology in Computer Science Engineering, CGPA: 7.91/10 Kolkata, West Bengal

St. Joseph's Public School 2020
Higher Secondary Education (CBSE), Class XII, Percentage: 61.6% Dalsingsarai, Bihar

St. Joseph's Public School 2018
Secondary Education (CBSE), Class X, Percentage: 71% Dalsingsarai, Bihar
